

New Journals from the Resource Centre for November 2011

The Resource Centre is open to the public Monday to Friday 9 am to 5 pm.

Books, videos and DVDs are available for loan.

Reference materials and journals are not available for loan, but can be photocopied free of charge.

For a complete listing of items in our collection, as well as an extensive list of online materials in over 70 languages, please consult our online Resource Centre Catalogue at http://www.alzheimertoronto.org/lib_onlineCatalogue.htm.

NEW JOURNAL ISSUES AVAILABLE

The following journal issues have been published.

Please indicate which articles you would like to view and I will email/fax them to you as appropriate.

Please provide Journal title, issue number, pages & title for each article required.

## Alzheimer Disease & Associated Disorders

Vol. 25 no 4. October-December 2011

Abstracts available online at <http://journals.lww.com/alzheimerjournal/pages/currenttoc.aspx>

|     |                                                                                                                                                                       |
|-----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 287 | Sharing Transnational Experiences of Psychogeriatric Units Dedicated to the Management of Behavioral and Psychological Symptoms in Demented Patients                  |
| 289 | Relationship Between Education and Dementia: An Updated Systematic Review                                                                                             |
| 305 | The Cognitive Change in Women Study (CCW): Informant Ratings of Cognitive Change but Not Self-ratings are Associated With Neuropsychological Performance Over 3 Years |
| 312 | The Association of Age With Rate of Cognitive Decline in Elderly Individuals Residing in Supporting Care Facilities                                                   |
| 317 | Depression in Patients With Moderate Alzheimer Disease: A Prospective Observational Cohort Study                                                                      |
| 326 | Neuropsychiatric Profiles in Dementia                                                                                                                                 |
| 333 | Safety and Effectiveness of Donepezil on Behavioral Symptoms in Patients With Alzheimer Disease                                                                       |
| 341 | Prevalence and Demographic Features of Early-Onset Neurodegenerative Dementia in Brescia County, Italy                                                                |
| 345 | Using the WHOQOL-BREF in Persons With Dementia: A Validation Study                                                                                                    |
| 352 | Ghrelin-Attenuated Cognitive Dysfunction in Streptozotocin-induced Diabetic Rats                                                                                      |
| 364 | Hippocampal Sclerosis in the Elderly: Genetic and Pathologic Findings, Some Mimicking Alzheimer Disease Clinically                                                    |
| 369 | Mark A. Smith: Impresario of Alzheimer                                                                                                                                |

## Alzheimer's & Dementia: Journal of the Alzheimer's Association

Vol. 7 no 6. November 2011

Abstracts available online at <http://www.alzheimersanddementia.org/current>

|     |                                                                                                                                       |
|-----|---------------------------------------------------------------------------------------------------------------------------------------|
| 557 | Prospects for designating Alzheimer's disease research a national priority                                                            |
| 562 | Videoconference diagnosis and management of Choctaw Indian dementia patients                                                          |
| 567 | Predictors of suicide in patients with dementia                                                                                       |
| 574 | Presenilin enhancer-2 gene: Identification of a novel promoter mutation in a patient with early-onset familial Alzheimer's disease    |
| 579 | Long-term progression of Alzheimer's disease in patients under antidementia drugs                                                     |
| 593 | The measurement of everyday cognition: Development and validation of a short form of the Everyday Cognition scales                    |
| 602 | Suitability of the Clinical Dementia Rating-Sum of Boxes as a single primary endpoint for Alzheimer's disease trials                  |
| 611 | Functional deficits among patients with mild cognitive impairment                                                                     |
| 615 | Countrywide strategic plans on Alzheimer's disease: Developing the framework for the international battle against Alzheimer's disease |

## American Journal of Alzheimer's Disease & Other Dementias

Vol. 26 no 5. 2011

Abstracts available online at <http://aja.sagepub.com/content/current>

|     |                                                                                                                                                                                |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 355 | Diagnosing and Managing Alzheimer's Disease, Distinguishing Posterior Variants of Dementia and the Usefulness of Exercise                                                      |
| 357 | Validity, Reliability, and Feasibility of Clinical Staging Scales in Dementia: A Systematic Review                                                                             |
| 366 | Treating Sleep Problems in Dementia Caregivers Based on Parent-Child Interventions                                                                                             |
| 373 | Psychometric Evaluation of a Proposed Alzheimer's Aggression Scale                                                                                                             |
| 381 | Six-Month Walking Program Changes Cognitive and ADL Performance in Patients With Alzheimer                                                                                     |
| 389 | Mattis Dementia Rating Scale 2: Screening for MCI and Dementia                                                                                                                 |
| 399 | Mild Hypercholesterolemia, Normal Plasma Triglycerides, and Normal Glucose Levels Across Dementia Staging in Alzheimer's Disease: A Clinical Setting-Based Retrospective Study |
| 406 | Maintaining Physical Fitness and Function in Alzheimer's Disease: A Pilot Study                                                                                                |
| 412 | Posterior Cortical Atrophy: Evidence for Discrete Syndromes of Early-Onset Alzheimer's Disease                                                                                 |

## Dementia: international journal of social research & practice

Vol. 10 no 4. November, 2011

Abstracts available online at <http://dem.sagepub.com/content/10/4.toc>

|     |                                                                                                                                                                                          |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 457 | Visitor or care manager? Reflections on my mother, me and living well with dementia in a care home                                                                                       |
| 459 | Service users' involvement in the development of a maintenance cognitive stimulation therapy (CST) programme: A comparison of the views of people with dementia, staff and family carers |
| 475 | Government, professional and public efforts in Japan to change the designation of dementia ( <i>chihō</i> )                                                                              |
| 487 | Implementing the National Dementia Strategy in England: Evaluating innovative practices using a case study methodology                                                                   |
| 499 | Coping and its relationship to quality of life in dementia caregivers                                                                                                                    |
| 509 | Self and embodiment: A bio-phenomenological approach to dementia                                                                                                                         |
| 523 | Sliding interactions: An ethnography about how persons with dementia interact in housing with care for the elderly                                                                       |
| 539 | Interaction in community-based aged healthcare: Perceptions of people with dementia                                                                                                      |
| 555 | Dementia timeline: Journeys, delays and decisions on the pathway to an early diagnosis                                                                                                   |
| 571 | Dementia in the family: Two Norwegian case studies                                                                                                                                       |
| 587 | Accessibility in public space as perceived by people with Alzheimer's disease                                                                                                            |
| 603 | Proverbs and formulaic sequences in the language of elderly people with dementia                                                                                                         |
| 625 | Use of the MMSE to screen for dementia in Delhi                                                                                                                                          |

## Dementia and Geriatric Cognitive Disorders

Vol. 32 no 2. October, 2011

Abstracts available online at

<http://content.karger.com/ProdukteDB/produkte.asp?Aktion=Ausgabe&Ausgabe=255489&ProduktNr=224226>

|     |                                                                                                                                                                           |
|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 79  | A Systematic Literature Review of Cerebrospinal Fluid Biomarkers in Delirium                                                                                              |
| 94  | <i>Saitohin</i> and <i>APOE</i> Polymorphisms Influence Cognition and Function in Persons with Advanced Alzheimer Disease                                                 |
| 103 | High Levels of Comorbidity and Disability Cancel Out the Dementia Effect in Predictions of Long-Term Mortality after Discharge in the Very Old                            |
| 111 | Staging Dementia Using Proxy-Reported Activities of Daily Living                                                                                                          |
| 118 | Cortical and Hippocampal Atrophy in Patients with Autosomal Dominant Familial Alzheimer's Disease                                                                         |
| 126 | Bacterial Contamination and the Transport Vial Material Affect Cerebrospinal Fluid Concentrations of $\beta$ -Amyloid and Tau Protein as Determined by Enzyme Immunoassay |
| 135 | Regional Differences in Effects of <i>APOE</i> $\epsilon$ 4 on Cognitive Impairment in Non-Demented Subjects                                                              |
| 143 | Depressive Symptoms in Alzheimer's Disease and Lewy Body Dementia: A One-Year Follow-Up Study                                                                             |
| 150 | Adult-Onset Leukoencephalopathy with Axonal Spheroids and Pigmented Glia Can Present as Frontotemporal Dementia Syndrome                                                  |

# JAD: Journal of Alzheimer's Disease

Vol. 27 no 1. November, 2011

Abstracts available online at <http://www.j-alz.com/issues/27/vol27-1.html>

|     |                                                                                                                                                                                                  |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1   | <b>Statins: The Role in the Treatment and Prevention of Alzheimer's Neurodegeneration</b>                                                                                                        |
| 11  | Which Memory System is Impaired First in Alzheimer's Disease?                                                                                                                                    |
| 23  | Anti-Amyloid- $\beta$ Single-Chain Antibody Brain Delivery Via AAV Reduces Amyloid Load But May Increase Cerebral Hemorrhages in an Alzheimer's Disease Mouse Model                              |
| 39  | Gender Differences in the Prodromal Signs of Dementia: Memory Complaint and IADL-Restriction. A Prospective Population-Based Cohort                                                              |
| 49  | Treatment with a $\gamma$ -Ketoaldehyde Scavenger Prevents Working Memory Deficits in hApoE4 Mice                                                                                                |
| 61  | Amyloid- $\beta$ Peptide-Induced Secretion of Endoplasmic Reticulum Chaperone Glycoprotein GRP94                                                                                                 |
| 75  | Decreased Proteolytic Activity of the Mitochondrial Amyloid- $\beta$ Degrading Enzyme, PreP Peptidosome, in Alzheimer's Disease Brain Mitochondria                                               |
| 89  | Deficits in Spatial Learning and Memory is Associated with Hippocampal Volume Loss in Aged Apolipoprotein E4 Mice                                                                                |
| 99  | Dendritic Cells Regulate Amyloid- $\beta$ -Specific T-Cell Entry into the Brain: The Role of Perivascular Amyloid- $\beta$                                                                       |
| 113 | Serum and Cerebrospinal Fluid Uric Acid Levels in Lewy Body Disorders: Associations with Disease Occurrence and Amyloid- $\beta$ Pathway                                                         |
| 119 | Serum and Cerebrospinal Fluid Uric Acid Levels in Lewy Body Disorders: Associations with Disease Occurrence and Amyloid- $\beta$ Pathway                                                         |
| 127 | 4-O-Methylhonokiol Attenuated Memory Impairment Through Modulation of Oxidative Damage of Enzymes Involving Amyloid- $\beta$ Generation and Accumulation in a Mouse Model of Alzheimer's Disease |
| 143 | Fulvic Acid Inhibits Aggregation and Promotes Disassembly of Tau Fibrils Associated with Alzheimer's Disease                                                                                     |
| 155 | Lack of Association Between COMT Polymorphisms and Apathy in Alzheimer's Disease                                                                                                                 |
| 163 | A Disease State Fingerprint for Evaluation of Alzheimer's Disease                                                                                                                                |
